\*As part of our wider Food Strategy we are making a conscious effort to reduce red meat across our business. We have sourced a Scottish burger that uses less beef, replacing some of the usual beef content with high quality plant-based ingredients. It's really tasty and reduces the carbon footprint of every burger served.

We cannot guarantee that any dishes are completely allergen free due to being produced in a kitchen that contains ingredients with allergens. If you would like to know the allergens in our food or drink, please ask for a member of the restaurant management team or scan the QR code.
